

DO YOU WANT TO START YOUR OWN LENDING BUSINESS?

DO YOU WANT TO START YOUR OWN LENDING BUSINESS?

Sky First Capital's mission is to fuel the American Dream by making small business loans simple through.

OPTIONS

SPEED

TRUST

Sky First Capital makes the business loan process super easy by helping small business owners skip the legwork of looking for a small business loan themselves. Instead of filling out dozens of the applications, they fill out one application with one of our loan agents (Hopefully, you!) and that is all they need! You will then share their application with lenders who will match them to a suitable funding program — And that means money in YOUR pocket!

If they are unable to be approved for any of our funding programs, then you can offer them additional products and services that will help them get “funding ready” within 30-60 days and then they may re-apply. You make money from these additional products and services. So, what this means in simple terms:

If they are approved,
you make money!

If they are rejected,
you make money!

As a Sky First Capital independent business owner, you will be able to help small business owners find the loan they need to grow their business by leveraging our multiple private funding options that boast a high approval rating. Your clients will complete a single application rather than many applications and it will then be reviewed by your chosen lenders. This takes the headache out of the loan application process for your client. If any of the lenders find a possible loan option for your client, you can offer it.

As a Sky First Capital independent business owner, you'll receive the resources, training and support you need to get started in the loan business as a loan broker. This loan business is 100% turnkey and includes:

- ✓ Full Website Setup with your own Unique Brand
- ✓ Advertising Account Setup with Google and Pre-Configured
- ✓ All Documentation and Online Applications Modified with your Unique Brand and Contact Information
- ✓ Access to a list of lenders and merchant cash advance providers plus access to Credit Building Products and Services you can mark-up and resell.
- ✓ Assistance with the Setup of your Payment and Billing System
- ✓ FULL Up-Front Training, Ongoing Support and Live Coaching for 30 days

As a Sky First Capital agent you can expect to receive \$1000-2000 UP-FRONT from application fees on fully pre-qualified loans and up to 7% BACK-END commissions on approved and funded loans. You can make \$5K to \$20K PER LOAN.

Please see the attached spreadsheet which gives you an idea of the expected monthly revenue/profits that can be generated with the business as well as the expenses you should expect while operating this business.

A business Loan Agent can make \$10K+ per month in commissions with some loan agents making as much as \$50K+ in loan commissions every month. Your pipeline of potential clients is constantly growing!

Not Convinced yet? Here are six reasons why this business opportunity is perfect for you:

1. Emerging Market

With the end of the PPP Loans and the tightening of the SBA's loan requirements, private lending has become a booming market and demand for private funding is higher than ever before. This growth will continue especially as the market recovers from COVID-19 and its economic impact.

2. Proprietary System

Our platform makes it easy for any loan agent to generate daily leads, daily loan applications and streamlines your ability to get your client's applications in front of a lender who can quickly approve it. Our system lets you get paid quickly and easily, get contracts signed quickly and so much more.

3. Multiple Funding Programs

Our database of lenders offers three primary funding programs: Unsecured Business Loans, Business Lines of Credit and Merchant Cash Advances. This means that whether your client has Good Credit, Bad Credit or No Credit— There is usually a program that can get them the funding that they need— and get you PAID.

4. Low Investment

At only \$9,900 to get started, the Sky First Capital Opportunity is one of the most affordable loan business opportunities on the market. Similar opportunities can cost as much as \$25,000-\$50,000+ up front with an additional \$50K to \$100K required as operating capital. With Sky First Capital all you need is \$9,900 down and \$2,000 - \$2,500 to cover your first months' worth of expenses.

5. Perfect Positioning

Our demand increases during economic downturns, and there's no shortage of customers: 99% of US companies are small businesses.

6. Enormous Demand

Banks are turning down over 80% of small business loan applications. That means we're filling the needs of most small business owners.
